

## IEEE Letters on EMC Practice and Applications (J-EMCPA)

# CALL FOR ABSTRACT-REVIEWED PAPERS

**Abstract-Reviewed Papers** were created for professionals that may be too busy with their careers to submit a technical paper through the traditional IEEE EMC Paper Format. To accommodate the busy schedule of practitioner engineers, only an abstract is required for the initial submission. Authors who submitted an Abstract-Reviewed Paper to

- The 2018 Joint IEEE International Symposium on EMC and APEMC, Singapore, or
- The 2018 IEEE Symposium on EMC+SIPI, Long Beach.

are invited to submit a **full paper** of up to **six (6) pages** to the IEEE Letters on Electromagnetic Compatibility Practice and Applications (L-EMCPA). The **IEEE Letters on Electromagnetic Compatibility Practice and Applications (L-EMCPA)** is now a quarterly published journal that provides a rigorously **peer-reviewed** forum for rapid publication of articles describing practice, lessons learned and applications of the disciplines electromagnetic compatibility (EMC) and signal and power integrity (SIPI) as well as all relevant methods to predict, assess and prevent electromagnetic interference (EMI) and increase device/product immunity. The submitted full paper will be subject of a full review. As the review of the submitted abstracts and the presentation at the EMC symposium are obtained as the first review cycle, the review is limited to one review cycle, only.

Authors are invited to submit manuscripts up to 6 pages in length, including title, author's affiliation, abstract, take home messages and figures via email to the EiC, Frank Sabath ([sabath@geml.uni-hannover.de](mailto:sabath@geml.uni-hannover.de)). A template is available on the EMC Society homepage ([www.emcs.org](http://www.emcs.org)) under publications.

Paper submission deadline: **15 December 2019**

Planned publication date: **May 2019**

**Employers/Companies of authors can place a free advertisement (1/8 page size) at the end of the issue.**
