

Subject: Solicitation of 2017 Award Nominations

Dear EMC Society Member;

Our Society is successful because of the many volunteers who contribute their time and energy for the good of the Society and their fellow EMC Engineers. The IEEE EMC Society sponsors a number of awards to recognize those people who have made significant contributions to the society and/or the EMC profession. These awards are normally presented at the awards banquet during the annual symposium. We are soliciting nominations for these various awards from you and your fellow members.

Please review the various categories listed below. When you find a category that fits someone you know and feel deserves recognition for their efforts please consider nominating them for that award.

The deadline for award nominations is 1 March, 2017.

To nominate someone for an award, first review the awards described below to determine which award is most appropriate to recognize the achievements of the person you want to nominate.

You can either nominate someone on-line, or you can download the nomination form, fill it out, and send it to Perry Wilson (emc-awards@ieee.org) Chair of the Awards Committee or email it to any member of the EMC Society Board of Directors.

The EMC Society Awards descriptions and on-line downloadable nomination forms are at:

http://www.emcs.org/awards_main.html

Nominations are reviewed by the board and award recipients are selected approximately three months prior to the annual symposium.

Details of the nomination and selection procedures may vary for different awards, so be sure to review the information provided below before making a nomination.

Summary of EMC Society Awards

Richard R. Stoddart Award for Outstanding Performance

<http://www.emcs.org/awards/award-stoddart.html>

To recognize the outstanding performance of an EMC Society member in contributing to the advancement of EMC technology or in contributing to the solution of a socio-technological problem

Laurence G. Cumming Award for Outstanding Service

<http://www.emcs.org/awards/award-cumming.html>

To recognize the outstanding service of an EMC Society member in contributing to the administration and overall success of the Society.

EMC Society President's Memorial Award:

<http://www.emcs.org/awards/award-presidents.html>

To honor a deceased, eminent member of the EMC Society through scholarship support for graduate study given in his/her memory.

EMC Society Hall of Fame Award

<http://www.emcs.org/awards/award-hall-of-fame.html>

To recognize current and past members of the IEEE Electromagnetic Compatibility (EMC) Society for significant accomplishments of a historical and/or enduring nature on behalf of the EMC Society over an extended period of time. The contributions could be in the technical area, administrative area, or a combination of both areas.

Technical Achievement Award

<http://www.emcs.org/awards/award-technical-achievement.html>

To recognize significant technical accomplishments in the field of Electromagnetic Compatibility.

The Sustained Service to the Society Award

<http://www.emcs.org/awards/award-sustained-service.html>

to recognize current members of the IEEE Electromagnetic Compatibility (EMC) Society for significant and sustained service to the administration and the overall success of the EMC Society over an extended period of time.

Honored Member Award

<http://www.emcs.org/awards/award-life-member.html>

To recognize outstanding service to the EMC Society over a period of time.

IEEE James C. Klouda Memorial Scholarship Award

<http://www.emcs.org/awards/award-klouda.html>

The was established in memory of James C. Klouda and his professional career in the field of electromagnetic compatibility. The Scholarship Fund awards, on an annual basis, a scholarship to a qualified undergraduate student who seeks an electrical engineering degree with emphasis in the field of electromagnetic compatibility or a related discipline, from an accredited US university or college.

Certificate of Appreciation

<http://www.emcs.org/awards/award-cert-appreciation.html>

To recognize a significant contribution to the administration and overall success of the EMC Society.

Certificate of Acknowledgement

<http://www.emcs.org/awards/award-cert-acknowledgment.html>

To acknowledge a special service to the EMC Society. In the past such services as General Chairman of the EMC Society Symposium, organizer of an IEEE convention session, or liaison with another society or organization have been acknowledged with this certificate.

Certificate of Recognition

<http://www.emcs.org/awards/award-cert-recognition.html>

Bestowed as a very special mark of recognition to an individual who is not a member of the EMC Society.

Excellence in Continuing EMC Engineering Education Award

<http://www.emcs.org/awards/award-continuingEMCEducation.html>

The EMCS is intended to recognize an outstanding EMC engineering educator who is a member of the IEEE EMC Society, who has shared technical and professional abilities through teaching in industry, government, or in continuing education institutions other than academia, for excellence in the design, delivery, and support of continuing education courses and programs in the fields of interest to EMC Engineering; for the ability to inspire students; for contributions to education and the publication of books and other writings and for innovations in EMC engineering education. In so doing he/she has made an outstanding contribution to the EMC Engineering profession and to the EMC engineering education community.
